PROFESSIONAL SUMMARY

Senior Java Developer with 9+ years of experience building enterprise applications using Java/J2EE, Spring Boot, Microservices, Node.js, Angular 8, and React JS. Hands-on expertise in DevOps practices for cloud applications on AWS and Azure. Delivered production-ready REST APIs and microservices for Fortune-500 healthcare and banking clients across the US and Germany. Reduced deployment time by 65% with automated CI/CD pipelines and cut release time from 40 to 10 minutes via Docker containerization. Certified DevOps Practitioner (Simplilearn), currently pursuing an Advanced Certificate in Cloud Computing.

TECHNICAL SKILLS

- Languages & Frameworks: Java, Spring Boot, Node.js, Angular 8, React JS
- Cloud & DevOps: AWS, Azure, Jenkins, Docker, CI/CD Pipelines
- Databases & Tools: Redis, Cassandra, Git, ServiceNow

WORK EXPERIENCE

IT Analyst | Tata Consultancy Services, Hyderabad, India | Dec 2020 - Present

- DTCC (US Client, Financial Services | Jun 2025 - Present): Built services using Node.js, Spring Boot Microservices, Jenkins, AWS, and Amazon SQS; used GitHub Copilot to accelerate development
- Reduced deployment time by 65% by building automated CI/CD pipelines with GitHub Actions
- Cut release time from 40 minutes to 10 minutes by containerizing services with Docker
- MetLife Insurance (US Client, Healthcare | Jun 2024 - May 2025 | Team size: 30): Built Spring Boot microservices and React JS applications with Azure APIM; built onboarding automation using Power Automate and Azure Boards
- McKesson Healthcare (US Client | Jan 2023 - Apr 2024 | Team size: 30): Implemented Spring Boot microservices with production support and monitoring in ServiceNow
- HCSC Healthcare (US Client | Sep 2021 - Dec 2022 | Team size: 50): Engineered Spring Boot microservices deployed on PCF with Swagger API documentation
- DaVita Healthcare (US Client | Dec 2020 - Aug 2021 | Team size: 100): Delivered Spring Boot microservices using Redis, Cassandra, DataStax, Jenkins, and Docker

Senior Software Engineer | Altran, Hyderabad, India | Sep 2020 - Dec 2020

- Owned support of a Network Management System (NMS) on the Mosaic Cloud Platform using Python and Scala scripts
- Managed Git version control, resolved build failures, and automated deployments using Jenkins; tracked issues via Jira

Senior Software Engineer | CGI Group, Bangalore and Hyderabad, India | Dec 2019 - Sep 2020

- CACS Banking Platform (Team size: 50): Built using Core Java, Dojo, RESTful web services, and batch processing (online and offline)

Full Stack Developer | Cognizant Technology Solutions, Bangalore, India | Jun 2019 - Dec 2019

- AKASH IIT-JEE Platform (Team size: 13): Built using Angular 8, Spring Boot, Microservices, and Hibernate 4.0; containerized with Docker and integrated into Jenkins CI/CD

Cloud & DevOps Engineer | HCL Technologies, Bangalore, India (Client: Deutsche Bank, Frankfurt) | Dec 2014 - May 2019

- Admin Tool, Cost Transparency, Inducement, Securities Tool Box (Team size: 6-7 each): Engineered using Core Java, Struts 1.3, EJB 3.0, JMS, J2EE, Web Services, Maven, and Ant

- Monitored AWS-deployed application performance; configured Jenkins CI on Linux for automated builds
- Set up backup and recovery workflows using AWS Snapshots; defined Git branching strategy for client teams

EDUCATION

- B.Tech, Information Technology - Amrita Sai Institute of Science & Technology, JNTUK University, Kakinada, Andhra Pradesh, India (2014)

CERTIFICATIONS

- DevOps Practitioner Training - Simplilearn
- Advanced Certificate Program in Cloud Computing - In Progress
